

JEVS Corporate Training Solutions

Strengthening Your Most Valuable Asset – Your Employees

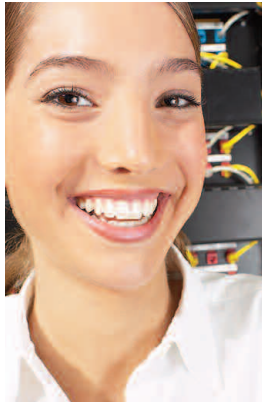

OUR CUSTOMIZED TRAINING PROGRAMS HELP YOU SECURE ESSENTIALS FOR YOUR ORGANIZATION'S SUCCESS:

Peak performance, optimal utilization of your staff, and the retention of valuable personnel.

Why JEVS Corporate Training Solutions?

We're a small business with big ideas

Our small size lets us focus on what matters most — your company's unique needs. Instead of “cookie cutter” courses with scattershot content, you get sharp analysis of your goals, on-target training designed specifically for your business, ultra-personalized service, and powerful results.

We understand that time is money

Our ability to learn your business and its culture quickly means your employees are able to apply their newly learned skills sooner. We ask the right questions, listen closely to gain a thorough understanding of your business — its day-to-day operations, challenges, culture, and the inner dynamics of your staff — then strategize a plan that gets your employees where you need them to be as fast as possible.

We're cost-effective

Our customized training is the most efficient way to develop your staff on a fixed budget. Our fees are all-inclusive so there are no surprises. No matter what training method you choose we include development, delivery, resources, and materials.

We're proven experts

Our training professionals ensure an excellent return on your development investment. With advanced degrees in education plus decades of corporate training, development, and real business experience, we bring an innovative, holistic approach to adult learning and the latest teaching tools, resources, and technologies.

We're conveniently flexible

We are easy to work with because the needs and expectations of your employees are our primary focus. We will limit the impact to your productivity by accommodating your scheduling needs. We offer day, evening, and weekend sessions. We can provide various methods of delivery such as DVD, web-based learning media, or Instructor Led Training (ILT) sessions.

We're your partner in employee development

Your customized training doesn't end with the completion of a course. Our commitment to your organization is ongoing. We continue to be available to you on a consultative basis to help you assess and develop future staff training needs to meet new business goals.

We offer specialized training in a variety of industries, including healthcare, education, retail, and building trades.

Not all businesses have the same learning priorities, so our customized training programs are tailored to the needs of your company and will complement your learning objectives. We teach competencies that are critical to your business, using the latest technology and methodologies available.
