

Supports for Independence

Home Modification

Seniors and adults living with disabilities can remain safe and secure in their own homes with home modification. Changes such as installing shower grab bars and stair ramps help eliminate the risk of injury and provide individuals with a safer and more secure home.

- Services**
- In-home assessment by licensed occupational therapist
 - We will recommend low or no-cost home adaptations to increase one's safety and independence
 - Reliable contractors will safely install home modifications
- Eligibility**
- Low-income seniors and adults with disabilities
 - Other eligibility criteria may apply
- Enrollment**
- Contact Supports for Independence

Cost

Services may be available at low or no cost
