

Work and Recovery Programs

Employment Network

Assists individuals with intellectual/developmental disabilities by preparing them for competitive employment and community integration. Following an assessment to determine abilities, potential, and interests, an individualized, goal-oriented vocational plan is developed, and the individual is then enrolled in learning experiences at community employment site and on-site vocational classes to ensure a smooth transition through the program and into competitive employment.

Services

- Assessment and vocational guidance
- Life skills and pre-vocational curriculum
- Community learning experiences
- Employment and career development
- Placement assistance in competitive employment
- On-the-job mentoring from job coaches and natural supports
