Participants of JEVS  
Achievement through  
Counseling & Treatment

## OUR STORY

Founded in 1941, JEVS Human Services is one of the largest private nonprofit organizations in the Delaware Valley region and proudly serves individuals from all walks of life who face various physical, developmental and emotional challenges, as well as the hurdles of unemployment, underemployment, and the lack of a high school diploma.

We serve nearly 30,000 individuals annually, giving them the tools they need to achieve their personal and career goals. By providing job skills training, career management, vocational rehabilitation, recovery services, adult residential services, and personal assistance in the home, JEVS Human Services enhances the quality of life of the individuals we serve.

Our work is made possible through federal, state, and local government funding coupled with private, foundation, and corporate contributions.

## OUR VISION

Individuals strengthen communities by realizing their highest quality of life through the achievement of personal and vocational potential.

## OUR MISSION

JEVS Human Services enhances the employability, independence, and quality of life of individuals through a broad range of programs. Consistent with our core principles and entrepreneurial spirit, we create innovative and sustainable solutions to address current and future community needs.

## WHAT WE DO

### Education and Career Services

A number of our programs help dislocated workers, those who are underemployed and unemployed, seniors, military veterans, out-of-school youth, ex-offenders, refugees, people with disabilities, low-income families, and others by offering skills assessment, skills training, job readiness and job placement. This includes welfare-to-work programs and other career-related services, including counseling, testing, job search, career exposure through mentoring and apprenticeships, and outplacement.

We provide training in a variety of in-demand fields, including building trades, health care, hospitality, STEM and information technology. We also pioneered the development of specialized career assessment tools distributed internationally.

### Behavioral Health and Recovery

Our services provide psychiatric rehabilitation, community learning experiences, and employment programs for individuals with physical and intellectual/developmental disabilities, and mental illness. We offer substance abuse treatment programs for adults seeking support to overcome addiction.

### Community Supports and Adult Residential

Our person-centered programs for individuals with physical and intellectual/developmental disabilities, and mental illness are tailored to help each person reach his or her highest potential in life and integrate as fully as possible through community participation.

### Long-Term Supports and In-Home Care

Through our in-home personal assistance and supports coordination services, we help people who are aging or who have a range of physical disabilities maintain independence in their own homes, and direct the delivery of their own supports and care.

Markus, JEVS  
TechServ Scholars

JEVS Franklin C. Ash Summer Interns  
and Lasko College Prep Program Participants

- 714** patients received substance abuse treatment

---
