Note: NOT CellTrak 1.7

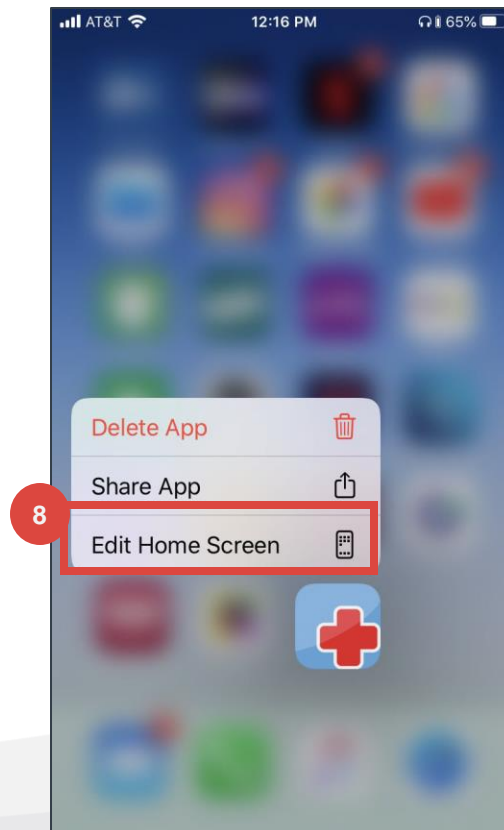

Downloading, Installing and Updating the App - iOS

5. Tap Get

You may have to enter your iTunes password or use your fingerprint.

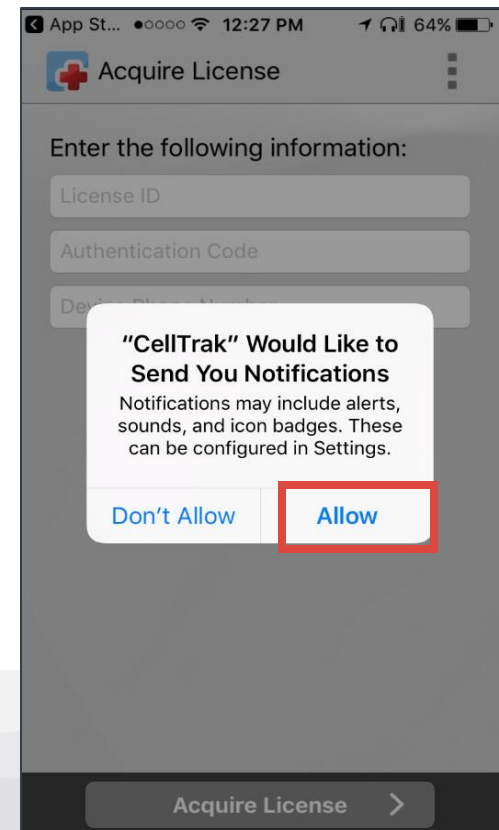

6. Locate the CellTrak icon
7. Press and hold until the Quick Action Menu appears
8. Select Edit Home Screen
9. With the icons wiggling, you can move the app to the Home screen

10. Open the CellTrak app

11. Click Allow so that CellTrak can send you notifications like other apps

Updating the App - iOS

Just like other apps, CellTrak updates the app as needed. Follow these steps to make sure you have the most current app version.

1. Tap and Hold the App Store icon
2. Choose Updates
3. Scroll down to 'Available Updates'
4. Locate CellTrak
5. Click Update
